

DONATION REQUEST

EIN: 82-2592585

WMCEF.org

Since its inception in 2017, the WMCEF has provided numerous scholarships to students entering the field of Land Surveying and Mapping. We were extremely proud of the fundraising efforts in 2020 that provided \$10,000 in scholarships to qualified students for the 2020-2021 academic school year. We couldn't have done it without **YOU!**

Once again, we are calling upon all individuals, businesses, vendors, etc. to help carry our great purpose / mission forward. While the WMCEF committee fully intends to provide fund raising opportunities as conditions allow, COVID-19 has posed some challenges, obstacles, and uncertainty that may hinder our great work in providing scholarships for the upcoming 2021-2022 academic school year.

With that being said, we are challenging each of you to seriously consider a tax deductible donation of any amount (<https://www.wmcef.org/donate>) that can be made at any time. Donations could range from \$1, \$5, \$25, \$100, \$500, \$1,000 and up. WMCEF is a 501(c) (3) tax exempt foundation with all donations being tax deductible. Let's see if we can match or surpass last year's efforts! We sincerely believe we can achieve great things when we come together! We look forward to the opportunity to come together again.

Regards,
WMCEF Education Committee

Special Thanks to our top 2020 donors!
