

T-O ENGINEERS

Land Surveyor (Cody, WY)

Job Description

T-O Engineers is looking to fill a key role in our thriving company. We are seeking a Land Surveyor to lead our existing survey staff in our Cody, Wyoming office. The ideal candidate will have a professional network in Wyoming and have the ability to grow our existing survey practice in this market. The successful candidate will have a Wyoming PLS license or be an LSIT with the ability to become licensed in Wyoming within two years.

Key traits for this position are strong communication, leadership and organizational skills; team player; and ability to work outdoors and in a professional office environment on a wide variety of projects. Personal appearance must be professional in the field and office. AutoCAD/Civil3D, Trimble Business Center skills and GPS/RTK, Robotic Total Station experience is a plus. The successful candidate will also work closely with Survey Staff in our other offices in Utah, Idaho, and Washington.

Come enjoy a rewarding career with T-O Engineers in the beautiful mountain community of Cody, Wyoming, gateway to Yellowstone National Park.

Position Requirements & Responsibilities Include:

- Wyoming PLS or LSIT with the ability to become licensed in Wyoming within two years
- Established professional network in Wyoming
- Ability to lead business development and marketing in Wyoming
- Ability to obtain Idaho PLS a strong plus
- Strong communication, organization and mathematical skills
- Ability to work outdoors and in a professional office environment
- Strong skills using AutoCAD / Civil 3D
- Trimble Business Center, GPS/RTK and Robotic Total Station experience required
- Self-motivated, team-oriented individual willing to listen with the ability to work on challenging projects in a team environment
